SUMMARY

Full Stack & DevOps Developer with hands-on experience in building scalable web applications and cloud-native solutions. Proficient in React.js, Node.js, Express.js, FastAPI, REST APIs, PostgreSQL, MongoDB, Docker, Kubernetes, and AWS. Skilled in CI/CD pipelines, Agile methodologies, and AI-powered feature integration (LangChain, OpenAI, Gemini). Strong problem-solving, collaboration, and communication skills with a proven track record of delivering optimized digital solutions.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, REST APIs, GraphQL, TypeScript (Node.js)
Databases: MongoDB, MySQL, PostgreSQL
DevOps & Cloud: Git, GitHub, Docker, Kubernetes, AWS Cloud, Jenkins, Terraform, CI/CD pipelines
AI/ML Tools: LangChain, OpenAI API, Google Gemini API
Other Tools & Practices: Agile/Scrum, API Integration, Version Control

EXPERIENCE

MERN Intern — BuiltUp Technologies Jan 2025 – Apr 2025

- Developed and deployed a Hospital Management System (HMS) using the MERN stack.
- Implemented secure user authentication and role-based access control, improving data security.
- Designed REST APIs for patient record management, ensuring efficient data handling.
- Enhanced React-based dashboard UI, improving user experience and accessibility.
- Contributed to both frontend and backend development, collaborating in an Agile team environment.

GenAI Job Simulation on Forage — BCG October 2025

- Completed a job simulation involving AI-powered financial chatbot development for BCG's GenAI Consulting team.
- Gained experience in Python programming, including the use of libraries such as pandas for data manipulation.
- Integrated and interpreted complex financial data from 10-K and 10-Q reports, employing rule-based logic to create a chatbot that provides user-friendly financial insights and analysis.

PROJECTS

AI-Powered Research Assistant Link

- Adding a feature that helps users summarize, analyze, and extract key insights from research papers and documents automatically.
- Designed to assist with literature review, reference management, and structured note-taking to streamline research tasks.
- Successfully built and deployed a full-stack Research Copilot module with RAG-based AI chat, document management, and analytics dashboard using Next.js and FastAPI.

Job Portal Website link

- Built a full-stack job portal with role-based authentication for job seekers and recruiters.
- Integrated AI-powered features: chatbot assistance, job match analysis, resume tips, and cover letter generation using FastAPI, LangChain, and Google Gemini API.
- Designed a responsive frontend (React) and Node.js/Express backend with MongoDB database.
- Improved job matching speed by 40% through AI-powered recommendations.

EDUCATION

Bachelor of Engineering (Computer Engineering) Aug 2021 – May 2025
Gujarat Technological University — Shree Swaminarayan Institute of Technology CGPA: 7.93/10

CERTIFICATIONS

- Introduction to Front-End Development — Meta
- Programming with JavaScript — Meta
- Deploy Static Website on Azure — Microsoft Learn Student Ambassadors (MLSA)
- Exploring Azure and AI Language Studio — MLSA
